

**THE CY4GATE GROUP ACHIEVES PRESTIGIOUS CERTIFICATION FROM ECSO:  
“CYBER SECURITY MADE IN EUROPE”**

**THANKS TO THIS LABEL, THE COMPANY WILL BE ABLE TO FURTHER INCREASE ITS VISIBILITY ON A  
EUROPEAN AND INTERNATIONAL LEVEL**

Rome, 8<sup>th</sup> November 2022 – **CY4GATE GROUP** (EGM: CY4), a company operating in the all-round cyber market, announces having been awarded the “Cyber Security Made in Europe” Label, a prestigious and unique certification for companies operating in the cyber security sector with a registered office and main market in Europe.

Developed as part of a project by the European Cyber Security Organisation (ECSO), a non-profit organisation that works with the European Commission to develop and implement effective cybersecurity policies, the certification aims to promote cybersecurity in the European Union and the expertise of qualified European companies that are the flag bearers in this sector for the European values of reliability, the creation of solutions and services that comply with the standard introduced by ENISA (European Union Agency for Cybersecurity) for the security of IT products and the European policies on GDPR.

Thanks to this “Cyber Security Made in Europe” certification, Cy4gate consolidates its market positioning with an offering in line with the highest European standards, positioning it amongst the best-in-class companies in terms of quality and reliability, enabling Cy4gate to implement synergies for the joint development of technologies and projects with a broader panel of companies in the sector that share the same inspiring principles, all with increasing authority.

**Emanuele Galtieri**, CEO of Cy4Gate Group, states, *“We are extremely convinced that in the cyber field, the achievement of national technological sovereignty cannot be separated from the realisation of a European technological sovereignty. This significant certification once again testifies to Cy4Gate’s determination to make a concrete contribution to ensuring quality technological advancement within the context of the European Union. Moreover, it is an acknowledgement that comes just a few weeks following the announcement of the signing of the acquisition of the French cyber-boutique Diateam, underlining the extent to which this issue requires a commitment from us that transcends national borders. Cyber Security Made in Europe certification is confirmation of a commitment to quality and reliability owed to our customers.”*
