**CY4GATE GROUP AWARDS A CONTRACT ON DECISION INTELLIGENCE WITH A FOREIGN
INSTITUTIONAL CUSTOMER
FOR A TOTAL VALUE OF APPROXIMATELY €850,000 OVER 12 MONTHS**

Roma, 13 March 2024 - **CY4GATE (CY4.MI)**, national and European player in cyber security and cyber intelligence, has signed an important contract with a foreign institutional client for the carrying out of evolutionary activities on proprietary "Decision Intelligence" systems already previously acquired by the client. The value of the contract acquired amounts to approximately €850,000, for a duration of 12 months.

The project involves the integration of proprietary technology with evolutions and verticalisations necessary to satisfy specific technical requirements of the end user (institutional customer) who intends to achieve a more efficient and effective use of the data in possession. It involves making a series of improvements to the advanced decision-making support tools already in place, ensuring a greater level of automation and a significant information enrichment capacity through easy-to-use dashboards and with the use of proprietary Artificial Intelligence algorithms on which Cy4Gate is recognized by Gartner as a "Representative Provider".

Foreign markets have always represented a key point in the Group's strategy to become increasingly international, with a focus on geographical areas where the need to implement digital transformation paths and strengthen networks by protecting data from cyber threats is most felt.

Emanuele Galtieri, CEO and General Manager of CY4GATE declared: *"The acquisition of this evolutionary project once again rewards the vertical skills acquired and the ability to satisfy specific requirements of particularly demanding customers. Competition is faced with the possession of high technological standards in synergy with solid skills and expertise that enable innovation, in a market where technological obsolescence is always looming"*.
