**CY4GATE GROUP: CONTRACTS SIGNED FOR ADVANCED RESEARCH AND DEVELOPMENT
ACTIVITIES IN THE FIELD OF CYBER SECURITY
WITH A TOTAL VALUE OF OVER €600,000 AND FOR A DURATION OF 12 MONTHS,
IN PARTNERSHIP WITH A PRIMARY ITALIAN HIGH-TECH COMPANY OPERATING ON THE
DOMESTIC AND FOREIGN MARKETS**

Rome, 11 March 2024 - **CY4GATE (CY4.MI)**, national and European player in cyber security and cyber intelligence, has signed two contracts for a total value of over €600,000 for the execution of two research and innovation projects in the cyber security field with a primary Italian high-tech company, operating both in Italy and abroad, for a period of 12 months.

The goal of supply in the cyber security domain has the objective of identifying new future generation technological solutions capable of identifying in advance the first signs of a potential attack and identifying its nature and origin in real time on both IT and OT systems. The projects also extend to the securing of supply chains.

These are contracts that allow the full use of the potential that the company expresses with very deep niche skills in a constantly evolving sector, consolidating expertise in the domain that places Cy4Gate among the most qualified national interlocutors in the design and development of technologies applied to cyber security.

Emanuele Galtieri, CEO and General Manager of Cy4Gate Group declared: *"We have acquired an important project, because research and development initiatives like these represent the lifeblood for us to confirm ourselves in the sector as "first movers" and keep up with the rapid evolution of threats. We thus confirm our product-centric vocation and will continue to act to make these sophisticated technologies available and accessible to an increasingly wider market, that of the corporate world which has a great need for them and to which our strategy dedicates a specific focus".*
