

IN THE LAST TWO MONTHS OF 2021, CY4GATE ACQUIRES SEVERAL ONE-YEAR CYBER SECURITY CONTRACTS WITH TOP CORPORATE CLIENTS WORTH A TOTAL OF OVER €500,000

Rome, 23 December 2021 - CY4GATE (EGM: CY4) - a company active in all areas of the cyber market, announces that top Italian companies in the high-tech, telco and media & events sectors have awarded it contracts for the provision of ICT analysis and redesign services to upgrade their proprietary ICT infrastructures to meet higher cyber resilience standards in the fight against potential cyber attacks. These contracts acquired in the last two months of 2021 have terms of one year and are worth a total of roughly €500,000.

The services include support for the clients' IT departments, with a CY4GATE team highly specialised in cyber security assigned to analyse the IT infrastructure, study potential vulnerabilities and develop executive projects to minimise the impact of potential attacks. They will be working on obsolete architectures that were designed when cyber threats were less pervasive and that were then layered over the years with updates that were not always consistent with the evolution of the threats themselves.

The CY4GATE team will draw on proprietary know-how and technologies for the projects, receiving additional support from the digilabs installed at dedicated company facilities. The ultimate objective is to make these complex ICT infrastructures "secure by design".

Emanuele Galtieri, CEO and General Manager of CY4GATE, noted, *"The contracts we have acquired confirm how CY4GATE is increasingly distinguishing itself as a reliable partner for the supply of extremely delicate products and services that are crucial for a company's operations. Clients rely on us to protect their cyber perimeters from potential external threats and, therefore, to ensure business continuity and, consequently, profitability. The know-how and experience gained in the field – along with the proprietary technologies – are two of CY4GATE's greatest strengths and what distinguish it in the cyber security sector."*

About CY4GATE

CY4GATE was founded in 2014 to meet demand for unconventional cybersecurity solutions. Listed on the Euronext Growth Milan since June 2020, CY4GATE was created to design, develop and produce technologies, products, systems and services that respond to even the most rigorous and sophisticated cyber intelligence & cybersecurity needs of Law Enforcement Agencies, the Armed Forces, Institutions and Businesses in Italy and abroad. With its one-of-a-kind Italian business model, CY4GATE covers the entire cyber market with proprietary products for both data collection and analysis and security: Quipo and Igea in Cyber Intelligence and RTA in Cyber Security.
