

**Press Release**

**CY4GATE GROUP HAS AWARDED TWO CONTRACTS ON DECISION INTELLIGENCE WITH INSTITUTIONAL CUSTOMERS IN ITALY AND EUROPE FOR A DURATION OF 18 MONTHS AND FOR A TOTAL VALUE OF ABOUT 3.5 MILLION EUROS**

**THE INTERNATIONALIZATION PATH OF CY4GATE IS CONSOLIDATED WHICH – THANKS TO MODULAR AND FLEXIBLE OFFERING AND WITH ENTIRELY ITALIAN TECHNOLOGY – IS ABLE TO SATISFY VERY CHALLENGING MARKET NICHES**

Rome, 27 October 2023 – **CY4GATE (CY4.MI)**, a national and European player in cyber security and cyber intelligence, announces that it has signed two important contracts respectively in Europe and Italy for the supply of Decision Intelligence systems.

The overall value of the contracts acquired amounts to €3,500,000 for a duration of 18 months.

The projects, with the use of proprietary technology verticalized to the specific needs of customers, in both cases public administrations, aim to enable end users to use the data in their possession more efficiently and effectively. Customers will thus be able to benefit from advanced decision-making support tools, with a significant level of automation and a significant information enrichment capacity through easy-to-use dashboards. The aforementioned systems make extensive use of artificial intelligence, integrating a package of proprietary algorithms on which Cy4Gate has also been reconfirmed for the year 2023 as a "Representative Provider" by Gartner.

The internationalization path of Cy4Gate is confirmed and consolidated which - thanks to its modular and flexible offering and entirely Italian technology - manages to satisfy very challenging market niches.

**Emanuele Galtieri**, CEO and General Manager of CY4GATE declared: *"I am satisfied with the acquisition of these two new projects: once again the vertical skills in the niche and the high standard of the technologies integrated into our products make the difference in a market characterized by particularly pressing competition and in which knowing how to innovate and knowing how to do it within the times required by a market in which technological obsolescence is always looming, becomes the real winning factor. Cy4Gate has been able to create within itself that fertile humus for innovation which is the prerequisite for being able to make an effective contribution in support of the looked-for national and European technological independence in the cyber domain which is mentioned by many as bridging the accumulated technological gap".*
