

**Press Release**

**CY4GATE: FABIO CIPOLAT IS THE NEW CHIEF COMMERCIAL OFFICER CORPORATE ITALY & EUROPE**

**THE COMPANY STRENGTHENS ITS COMMERCIAL STRUCTURE AND IS PREPARING FOR CONSOLIDATION ON THE NATIONAL AND EUROPEAN MARKET, STRONG WITH A SOLID MULTI-PRODUCT TECHNOLOGICAL PLATFORM FOR CYBER SECURITY NEEDS**

Roma, 23 October 2023 – **CY4GATE (CY4.MI)**, national and European player in cyber security and cyber intelligence, announces the entry into the company of Fabio Cipolat, Chief Commercial Officer Corporate Italy & Europe, placed at the head of the newly established Marketing & Sales Department which will complete the existing Sales Defense & Security Italy and International Sales led respectively by Stefania Sica and Massimiliano Romeo.

Fabio Cipolat boasts significant experience and results in commercial management in important multinationals in the cyber world such as Zscaler and Splunk and his entry into the company will allow Cy4Gate to proceed with even more determination in the company's growth and internationalization path, with specific reference to the corporate market.

The company has also consolidated its technological platform dedicated to cyber security with a synergistic and integrated offering of the following solutions:

- RTA, the Cyber Threat Hunting platform in Real Time, entirely developed with proprietary and made-in-Italy technology, which integrates functionalities in the field of behavioral analysis, normalization and event correlation using Artificial Intelligence and Machine Learning algorithms, exploiting a architecture that allows rapid verticalization and customization flexibility;
- Cyber Digital Twin, the leading solution for the generation of timely replicas of cyber networks and infrastructures, including the OT/IoT part, which allows you to carry out not only Test & Validation activities but also very invasive red and blue teaming activities without the risk to impact real critical infrastructures, but also real training and education sessions;
- The FUSION Cyber Threat Intelligence service, in partnership with DeepCyber, which consists of the collection, analysis and use of information on cyber security threats. The varied sources provide data on cyber threats, allowing immediate identification, monitoring and blocking of threats. This translates into proactive and preventative defense, protecting systems before they are attacked;
- QUIPO, the Decision Augmentation platform based on an open and modular architecture that allows the real-time collection and analysis of large amounts of data collected from multiple sources, transforming them into intelligence information on targets. QUIPO's design was conceived to support the Decision Intelligence cycle of the OODA loop in order to process structured and unstructured data collected from open and closed sources;

## Press release

- ProntoCyber, the platform designed as a solution for Large Enterprises and SMEs to the problem of reduced visibility and awareness of the cyber posture of their supply chain, which is increasingly subject to cyber-attacks and therefore a potential attack vehicle for the entire supply chain. The platform not only enables cyber resilience assessment and evaluation activities, but offers remediations and protection, detection and response solutions in the event of cyber incidents.

Emanuele Galtieri, CEO and General Manager of Cy4Gate Group, declared: *“The entry into the company of Fabio Cipolat, new Corporate Marketing & Sales Director for Italy & Europe, completes a path of consolidation and natural evolution of Cy4Gate which increasingly opens up the own technologies to companies. Our strategy, thus, is corroborated by an even more valid customer value proposition which rests its foundations on a solid technological platform, confirming the role of reference player in Europe that the company aspires to play in the cyber security segment”.*
