

Press release

CY4GATE GROUP MENTIONED IN 2026 AS A “REPRESENTATIVE VENDOR” IN GARTNER’S REPORT “EMERGING TECH: THE FUTURE OF DIGITAL SOVEREIGNTY IS NOT DATA ALONE” IN THE AREA OF TECHNOLOGICAL SOVEREIGNTY

Rome, August 4, 2026 - **CY4GATE (CY4.MI)**, a national and European player in cyber security and cyber intelligence, announces that it has been named as *di representative vendor* in Gartner’s recent report **Emerging Tech: The Future of Digital Sovereignty Is Not Data Alone**, which focuses on the growing relevance and strategic importance of **Technological Sovereignty**.

CY4GATE’s inclusion in this Gartner report is particularly significant in a context where digital sovereignty can no longer be limited to the mere location or protection of data, but must extend to the ability to ensure control, autonomy and continuity across the entire technological and operational value chain. The report highlights that sovereignty should be considered across three interconnected dimensions such as data sovereignty, operational and technological sovereignty, which are becoming increasingly critical to resilience, risk management and competitive advantage.

Against this backdrop, CY4GATE Group’s inclusion among the *representative vendors* cited by Gartner represents further recognition of the Group’s role in developing proprietary technologies for highly critical environments, where technological independence, control capabilities and operational security are key elements to national security, critical infrastructure and, more broadly, the protection of the national ecosystem.

This mention, which adds to the numerous recognitions received by CY4GATE Group in the field of so-called Composite AI, namely the application of Artificial Intelligence in highly innovative areas, represents an important confirmation of the Company’s role as a leading-edge technology player in the Italian and European markets, as well as of its commitment to developing proprietary solutions recognised by the market and analysts, who constantly monitor its evolution and development trajectory

This press release is available on the Company’s website at www.cy4gate.com under the “Investors” section and on the authorised storage mechanism at www.1info.it.

About Cy4Gate Group

Founded in 2014, the company was established to address the growing demand for unconventional cybersecurity solutions. CY4Gate S.p.A., listed on the Euronext Growth Milan market in June 2020, was admitted to the STAR segment of Euronext Milan in June 2023.

CY4Gate S.p.A. was created to design, develop, and deliver technologies, products, systems, and services capable of meeting the most demanding and advanced Cyber Intelligence and Cyber Security requirements of law enforcement agencies, armed forces, government institutions, and enterprises, both in Italy and internationally.

As a unique Italian industrial initiative, CY4Gate S.p.A. operates across the entire cybersecurity spectrum, offering proprietary solutions that address both intelligence gathering and analysis, as well as cybersecurity needs. Its portfolio includes CY4GARD, Hybrid Cyber Range, and the XTN Cognitive Security Platform for cybersecurity, and QUIPO for Cyber Intelligence.
