

**CY4GATE IS AWARDED A MAJOR CONTRACT WORTH €600,000
WITH A FOREIGN GOVERNMENT CUSTOMER**

**THIS LATEST PROJECT MARKS ANOTHER ACCELERATION IN CY4GATE'S INCREASINGLY FASTER
GROWTH IN TURNOVER AND PROFITABILITY**

Rome, 27 December 2021 – Cy4Gate S.p.A. (EGM: CY4) – a company active in all areas of the cyber market, announces that it has won a contract to supply a proprietary cyber intelligence software solution to a prominent Central American government.

This contract, worth €600,000, confirms the strength of CY4GATE's offer of products and services and the effectiveness of its method of penetrating new markets, despite the limits created by the ongoing pandemic and the surge of infections in certain areas of the globe.

The series of contracts acquired in the fourth quarter of the year confirms – yet again – the seasonal nature of CY4GATE's business model, with the business development initiatives commenced in the first few months of 2021 leading to concrete results in the second half of the year.

Emanuele Galtieri, CEO of CY4GATE, remarked, *"We are delighted to sign this contract, another indication that our products and customer value proposition remain attractive even in different regions. CY4GATE's internationalisation is one of the key drivers that characterise the company's growth strategy, and this growth will be further boosted over the next three years thanks to the M&A deal that has led to a preliminary agreement to acquire 100% of the holding company Aurora."*

About CY4GATE

CY4GATE was founded in 2014 to meet demand for unconventional cybersecurity solutions. Listed on the Euronext Growth Milan since June 2020, CY4GATE was created to design, develop and produce technologies, products, systems and services that respond to even the most rigorous and sophisticated cyber intelligence & cybersecurity needs of Law Enforcement Agencies, the Armed Forces, Institutions and Businesses in Italy and abroad. With its one-of-a-kind Italian business model, CY4GATE covers the entire cyber market with proprietary products for both data collection and analysis and security: Quipo and Igea in Cyber Intelligence and RTA in Cyber Security.
