

**CY4GATE ANNOUNCES THAT IT HAS SIGNED A NEW CONTRACT WITH A BIG
ITALIAN HIGH-TECH CORPORATION**

THE 1-YEAR CONTRACT IS WORTH A TOTAL OF APPROXIMATELY €1.9 MILLION

Rome, 4 November 2021 - CY4GATE (EGM: CY4) - a company active in all areas of the cyber market - announces that it has signed a major contract for the implementation, in collaboration with the customer, of an ambitious project to develop – based on CY4GATE’s proprietary technologies and architectures (RTA and Quipo) – a fully integrated cyber technology platform to meet the most challenging intelligence and security requirements in the cyber sphere.

The contract, with a one-year term and a value of approximately €1.9 million, was awarded following a tender in which CY4GATE, for a few months, provided the customer with its technologies and a team of cyber experts to develop a proof of concept (PoC) needed to highlight the necessary skills, know-how and technological maturity that the company has consolidated and can harness to meet the challenging requirements that arose in the tender.

Emanuele Galtieri, CEO and General Manager of CY4GATE, remarked, *“CY4GATE is on the right path: having developed proprietary technologies that have transformed into successful, cutting-edge cyber products, we have confirmed the significance of the vision that inspired us when the company was founded and we declared it would be a cyber software house active in all areas of the cyber market. And now, this new contract demonstrates the validity of the choices made and reflects our strong drive to continue investing in product and technological research and innovation so we are ready to address the imminent challenges that will arise from the continuous evolution of the cyber world, changes that, in many cases, will be disruptive.”*

About CY4GATE

CY4GATE was founded in 2014 to meet demand for unconventional cybersecurity solutions. Listed on the AIM since June 2020, CY4GATE was created to design, develop and produce technologies, products, systems and services that respond to even the most rigorous and sophisticated cyber intelligence & cybersecurity needs of Law Enforcement Agencies, the Armed Forces, Institutions and Businesses in Italy and abroad. With its one-of-a-kind Italian business model, CY4GATE covers the entire cyber market with proprietary products for both data collection and analysis and security: Quipo and Igea in Cyber Intelligence and RTA in Cyber Security.
