

**CY4GATE IS AWARDED A MAJOR CONTRACT FOR THE SUPPLY OF ITS PROPRIETARY
CYBER INTELLIGENCE AND CYBER SECURITY TECHNOLOGIES TO AN INTERNATIONAL CLIENT -
THE 1-YEAR CONTRACT IS WORTH € 2.3 MILLION**

Rome, 18 November 2021 - CY4GATE (EGM: CY4) - a company active in all areas of the cyber market, announces that it has won the contract for the supply of an integrated cyber intelligence and cyber security solution to a foreign institutional client as part of a larger project.

The full package includes a structured annual training program to be provided by the CY4GATE Academy and touching on all aspects of the most contemporary issues of the entire cyber world.

Running for 1 year and worth around € 2,300,000, the contract is based on the use of CY4GATE's proprietary Quipo and RTA product technologies, which – after being suitably integrated and customised – will equip the client with: a) advanced decision-making support tools, drawing on a high degree of automation and the significant enhancement of information thanks to dedicated semantic, predictive and prescriptive AI algorithms; and b) robust infrastructure defending the client's cybersecurity perimeter, harnessing the latest security technologies and advanced threat intelligence tools to detect any anomalous behaviour on networks and to help cyber specialists repel potential attacks that could compromise the organisation's operations, with serious repercussions on a large number of stakeholders.

Emanuele Galtieri, CEO of CY4GATE, remarked, *"This contract brings us great satisfaction, as it entailed a lengthy stage of preparation, analysis and field testing of the capabilities and technologies offered. While our efforts were intense and extensive, they paid off: winning this new contract confirms the solidity of CY4GATE's strategic customer value proposition, which is recognised and valued in a niche market segment. Once again, the company is the face of made-in-Italy technology beyond national borders."*

About CY4GATE

CY4GATE was founded in 2014 to meet demand for unconventional cybersecurity solutions. Listed on the AIM since June 2020, CY4GATE was created to design, develop and produce technologies, products, systems and services that respond to even the most rigorous and sophisticated cyber intelligence & cybersecurity needs of Law Enforcement Agencies, the Armed Forces, Institutions and Businesses in Italy and abroad. With its one-of-a-kind Italian business model, CY4GATE covers the entire cyber market with proprietary products for both data collection and analysis and security: Quipo and Igea in Cyber Intelligence and RTA in Cyber Security.
