COMPANIES THAT HAVE GROWN RAPIDLY, CREATING JOBS AND VALUE**

Rome, 10 June 2021 – **CY4GATE** (AIM: CY4) - a company active across the entire cyber market, announces that it was named a Star of Innovation finalist in the European Small and Mid-Cap Awards 2021 promoted by European Issuers, the Federation of European Securities Exchanges (FESE) and the European Commission. The event, now in its ninth year, will be held in November 2021 during the European Commission’s SME Week in Portorož, Slovenia.

The awards will be given to the best Small and Mid-Caps that have recently entered capital markets and demonstrated an active commitment to achieving the EU’s goals for the creation of jobs, global competitiveness and rapid growth. This year, the awards are even more important than in the past considering the pandemic that dominated the period and, therefore, these companies’ greater ability to create value for the European economy.

“Seeing our name in the European Small and Mid-Cap Awards 2021 shortlist”, remarked CY4GATE's CEO, Emanuele Galtieri, “fills us with pride and shows, once again, how our company is solid and presents excellent prospects for future growth. Moreover, being the only Italian company in the “Star of Innovation” category and one of two Italian finalists for the overall awards further motivates us to champion Made in Italy internationally, with the satisfaction of selling our products and solutions, entirely developed in-house, in Europe and around the world.”

CY4GATE was founded in 2014 to meet demand for unconventional cybersecurity solutions. Listed on the AIM since June 2020, CY4GATE was created to design, develop and produce technologies, products and services that respond to even the most rigorous and sophisticated “Cyber Intelligence & Cyber Security” needs expressed by the Armed forces, Police, Intelligence Agencies and Companies in Italy and abroad.
