

CY4GATE, IN PARTNERSHIP WITH TOP ITALIAN INDUSTRIAL PLAYERS, WINS A MAJOR CONTRACT WITH A PRESTIGIOUS EUROPEAN AGENCY

CY4GATE IS PARTICIPATING IN A PROJECT WORTH €825,000 THAT WILL SIGNIFICANTLY CONTRIBUTE TO THE FUTURE GROWTH OF THE COMPANY'S TURNOVER AND PROFITABILITY

Rome, 2 December 2020 - CY4GATE (AIM: CY4) - a company active in all areas of the cyber market, announced that it has received the contract for an advanced and innovative real-time cyber situation awareness software suite.

The contract, worth €825,000, will have a significant impact on the company's future growth.

The technology is part of the DSINT (DATA & SIGNAL INTELLIGENCE) product family and harnesses sophisticated artificial intelligence, machine learning and cognitive computing techniques capable of preventing and countering new generation cyberattacks. The contract will also strongly benefit CY4GATE's performance on the corporate market, which it actively targets with its proprietary intelligence and cyber security solutions, known for the high standards of quality, reliability and versatility that characterise them.

The company believes that it can sustain long-term growth and high profit margins only through vertical proprietary technology. CY4GATE is not a cyber services company, which are intrinsically volatile and unsustainable. Rather, it is a company that develops innovative technologies in Italy, with all-Italian expertise.

Eugenio Santagata, CEO of CY4GATE stated, *"The European Community is adopting a new cybersecurity strategy, partly based on a recent report by the EU Agency for Cybersecurity (ENISA) according to which "the pandemic is severely testing the cyber resilience of our defences" in both government and private sectors. CY4GATE is honoured to contribute to the security of the most important European institutions with its Italian proprietary technologies."*

About CY4GATE

CY4GATE was founded in 2014 to meet demand for unconventional cybersecurity solutions. Listed on the AIM since June 2020, **CY4GATE** was created to design, develop and produce technologies, products and services that respond to even the most rigorous and sophisticated cyber intelligence & cybersecurity needs of the Armed forces, Police, Intelligence Agencies and Businesses in Italy and abroad. With its one-of-a-kind Italian business model, **CY4GATE** covers the entire cyber market with proprietary products for both data collection and analysis and security: DSINT, HYDRA, EPEIUS, Gens.AI and Igea for cyber intelligence; RTA for cybersecurity.
